Color My Plate: Earth Day and School Gardens

In 2018, Earth Day will be celebrated on Sunday, April 22. During this time of year, many schools are involved in projects that emphasize the importance of taking care of our planet. One activity that may interest your school is planting an edible garden. This is a great way to research and grow fruits and vegetables you can harvest and eat. Find out how to get started on your rainbow garden by visiting KidsGardening at www.kidsgardening.org.
